

Week 2 講義 : How Minecraft Was Created

文法重點：5W1H 疑問詞 (Who / What / Where / When / Why / How)

核心單字：13 個

Part 1 : Reading - From a Small Project to Minecraft

Today, millions of people know Minecraft, but it began as one person's small **project**.

Markus Persson, better known as "Notch," grew up in Sweden. He became interested in computers when he was young and learned to **program**. Later, he worked as a game developer, but he also enjoyed making his own games in his free time. He wanted to **create** a world where people could build, explore, and make their own choices.

In May 2009, Notch started working on an early version of Minecraft. At first, he called it "Cave Game." It looked very **simple**. The world had grass, stone, and blocky land. There were no villages, redstone machines, or Ender Dragons. In the earliest version, a **player** could not even place or break blocks yet.

Notch did not wait until the game was perfect. He decided to **share** an early version online. People could **test** it while he was still building it. They wrote comments about what they enjoyed and what did not work. This **feedback** gave Notch useful information. Some players also **suggested** ideas for the game.

Notch read their messages and worked quickly. He used some ideas, fixed problems, and tried to **improve** the game. He added more blocks and new ways to explore. Because players saw the game changing, they wanted to return and see what was new. They also told their friends about it.

The small project became more **popular**, so Notch decided to **continue** working on it. As it grew, he helped start a **company** called Mojang to support the game. Minecraft kept gaining new features, players, and communities around the world. Its full version arrived in 2011.

Minecraft did not become famous because it was perfect on day one. It grew because one creator shared an unfinished idea, listened to players, and kept making it better. A simple block world became a place where millions of people could create stories of their own.

Core Vocabulary 核心單字

#	Word	POS	中文意思	Example
1	program	v.	編寫程式	Notch learned to program when he was young.
2	project	n.	專案；計畫	Minecraft began as a small project.
3	create	v.	創造；製作	He wanted to create a new world.
4	simple	adj.	簡單的；簡樸的	The first version looked simple.
5	share	v.	分享；公開給他人	Notch shared the game online.
6	player	n.	玩家	Each player could explore the world.
7	test	v.	測試	People tested the early game.
8	feedback	n.	回饋；意見	Player feedback helped Notch.
9	suggest	v.	建議；提議	Players suggested new ideas.
10	improve	v.	改善；改進	Notch worked to improve the game.
11	popular	adj.	受歡迎的	Minecraft became popular online.
12	continue	v.	繼續	He continued working on the project.

Part 2 : Reading Comprehension

1. **Main idea** What is the passage mainly about?
 - A. How to build a house in Minecraft
 - B. How Notch and early players helped Minecraft grow
 - C. Why Minecraft has Ender Dragons
 - D. What games are popular in Sweden
2. **Detail** What was Minecraft first called?
 - A. Block World
 - B. Mojang Game
 - C. Cave Game
 - D. Stone Project
3. **Detail** Where did Notch share an early version?
 - A. Online
 - B. At his school
 - C. In a book
 - D. On television
4. **Sequence** What happened after players tested the early game?
 - A. Notch stopped programming.
 - B. They gave feedback and suggested ideas.
 - C. The game immediately had every modern feature.
 - D. Mojang closed the project.
5. **Inference** Why did players keep returning to the game?
 - A. They wanted to see its changes.
 - B. They had to finish homework there.
 - C. Notch gave every player a computer.
 - D. The game never changed.
6. **Guess from context** In “Minecraft kept **gaining** new features,” what does *gaining* most likely mean?
 - A. losing
 - B. hiding
 - C. getting
 - D. breaking
7. **Author's message** Which lesson best matches the ending?
 - A. Never show anyone unfinished work.
 - B. Good ideas cannot begin simply.

Part 3 : Grammar - 5W1H Questions

先看「答案是哪一類」，再選疑問詞

想問的答案	疑問詞	Example	Answer clue
人	Who	Who created Minecraft?	Notch.
事情 / 東西	What	What did he create?	Minecraft.
地點	Where	Where did he share it?	Online.
時間	When	When did he start?	In May 2009.

想問的答案	疑問詞	Example	Answer clue
原因	Why	Why did players return?	Because the game changed.
方法 / 過程	How	How did it improve?	Through testing and feedback.

快速口訣：人 **Who**、事 **What**、地 **Where**、時 **When**、原因 **Why**、方法 **How**。
 不要先翻中文句子；先想「我缺的是哪一種答案？」

Pattern 1：句中有 be 動詞

疑問詞 + be + 主詞 ...?

- What **was** the early game like?
- Where **was** Notch from?

Pattern 2：一般動詞問句

疑問詞 + do / does / did + 主詞 + 動詞原形 ...?

- Where **did** Notch **share** the game?
- How **did** Minecraft **become** popular?

看到 **did**，後面的動詞回原形。

✅ How did it **become** popular? ❌ How did it **became** popular?

特別注意：Who 本身就是主詞

問「誰做了這件事」時，不需要再放 **did + 主詞**：

- **Who** created Minecraft?
- **Who** suggested new ideas?

常見混淆

- **Why** 問原因，答案常有 **because**。
- **How** 問方法或過程，答案常說「用什麼方式」。
- **When** 問時間；**Where** 問地點。先看答案是時間還是地方。

Part 4 : Grammar Practice

A. Choose the best question word

- _____ created the first version of Minecraft? - Notch.
- _____ did he begin the project? - In May 2009.
- _____ did he share the early version? - Online.
- _____ did players do after testing it? - They wrote comments.
- _____ did Notch read player comments? - To learn what worked and what did not.
- _____ did the game improve? - Through testing, feedback, and updates.

B. Put the words in order

- did / Where / the game / share / Notch / ?

- did / Why / return / players / ?

3. the first version / was / What / like / ?

4. Minecraft / Who / created / ?

C. Find and fix the mistake

1. How did Minecraft became popular?

2. Who did create the first version?

3. When Notch did start the project?

Part 5 : Speaking - Interview a Minecraft Creator

想像同學做了一個新的 Minecraft 世界。輪流當記者與創作者，用六個疑問詞各問一題。

Question word	My question	Partner's answer
Who		
What		
Where		
When		
Why		
How		

Homework : Vocabulary Review Quiz

A. Match the words with their meanings

- | | |
|------------|---------------|
| 1. project | A. 改善 ; 改進 |
| 2. share | B. 公司 |
| 3. improve | C. 專案 ; 計畫 |
| 4. company | D. 分享 ; 公開給他人 |

B. Choose a word from the box

program simple player test feedback

5. Before releasing the app, we need to _____ it.
6. The instructions are short and _____, so everyone understands them.
7. A game _____ controls a character on the screen.
8. Her helpful _____ showed me how to make my work better.
9. People learn languages such as Python to _____ computers.

C. Choose the best answer

10. If you **suggest** an idea, you _____.
A. give someone an idea B. forget an idea C. hide a problem
